#### ***Description and objectives of the workshop:***

This is a day-long workshop. Participants will discuss possible alternative futures for UOC, taking into account trends in HE, changes in labour market requirements (new jobs/ job types) for graduates, and trends in technology. The workshop will be held with input from members of the Art of Elearning team (HE trends), a labour market expert and technology experts at MIT.

#### ***Outputs:***

A 'Teaching, technology and work futures' report will be written, and it will consist of a summary of the outputs from the workshop, concentrating on the themes emerging from the workshop for consideration when developing the roadmap.
