Resolution on the extension for one year of the UOC Grant for Doctoral Theses contract

On 1/12/2016, the call for applications for UOC grants to undertake doctoral theses in the Information and Knowledge Society Doctoral Programme, Network and Information Technologies Doctoral Programme, and Education and ICT (e-learning) Doctoral Programme for 2017-2018 was published on the Doctoral School website, inviting submission of applications between 1/12/2016 and 15/02/2017.

In the call mentioned above, it is established in section two [2] that the grant holders may opt to request an extension for a fourth year of the contract if they have satisfactorily defended their doctoral thesis before the end of the third year of the contract and have been awarded the highest academic mark. The extension for a fourth year of the contract will depend on the budget available at the institution and requires a favorable report from the thesis director and the UOC Research Grants Selection and Evaluation Committee. In this case, the grant holder may spend this fourth year producing scientific work related to their doctoral thesis.

The UOC Research Grants Selection and Evaluation Committee on 26/02/2021 have resolved to accept the extension for one year of the contract of the candidate Maria José del Pilar Palazzi.

Consequently, once resolved, UOC's Research and Innovation Committee within the period granted for this purpose,

**DECIDE**

**ONE.** To accept the extension for one year of the contract of the candidate Maria José del Pilar Palazzi, in accordance with the established in section two [2] of the Call mentioned above.

**TWO.** To notify this decision to the candidate mentioned above.

Barcelona, 12 May 2021.

Signed,
