El Salvador

The Doctoral School has coordinated the UOC's PhD programmes since 2014, adopting the university's strategy to provide the optimal ecosystem for innovative, interdisciplinary, translational and top-notch research training.

The school is part of the UOC's Interdisciplinary R&I Hub, where it collaborates with the university's research centres and faculties. Although located in central Barcelona, the Hub is accessible to the global community online, just like the UOC.

most exciting journeys in Dr. Nikolaos Floratos (Greece) **Education and ICT** 

(e-learning), PhD

"Great institute, excellent doctoral school supervisors, and a lovely city to live in. Overall a remarkable experience that allowed me to grow academically, professionally, and personally"

Dr. Amna Qureshi (Pakistan) **Network and Information** Technologies, PhD

"The PhD enables me to continue working on impactful digital health interventions for resource-limited settings"

Dr. Paul Macharia (Kenya) **Network and Information** Technologies, PhD

"The academic support system at the UOC is great, with many funding and training opportunities for PhD students"

Dr. Sarah Wagner (Canada) Information and Knowledge Society, PhD

"I felt driven and supported in my professional growth as a researcher, but I also felt that I was looked after as a person. The programme and the guidance are both comprehensive and personal"

Dr. Andrea del Carmen Corres (Mexico) Information and Knowledge Society, Phd
