02

Por qué a las empresas les cuesta tanto cambiar y cuáles son las barreras.

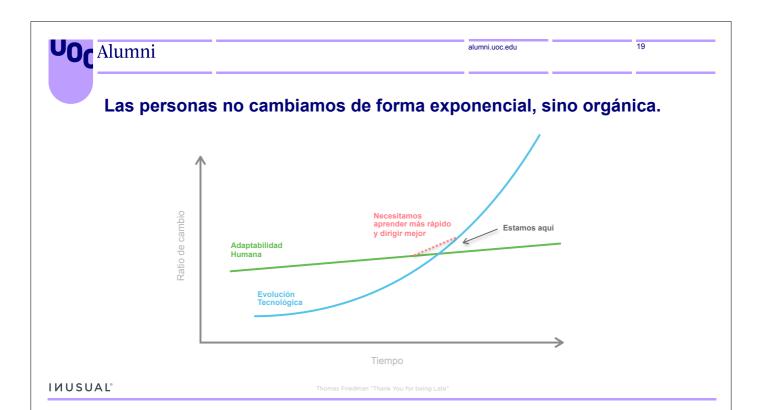

15

technology changes, humans don't.

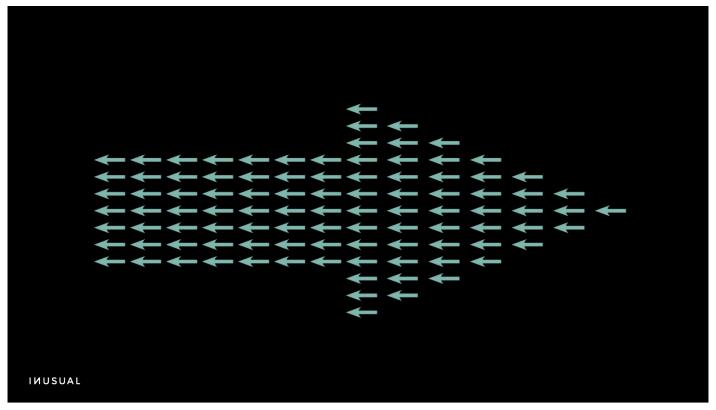

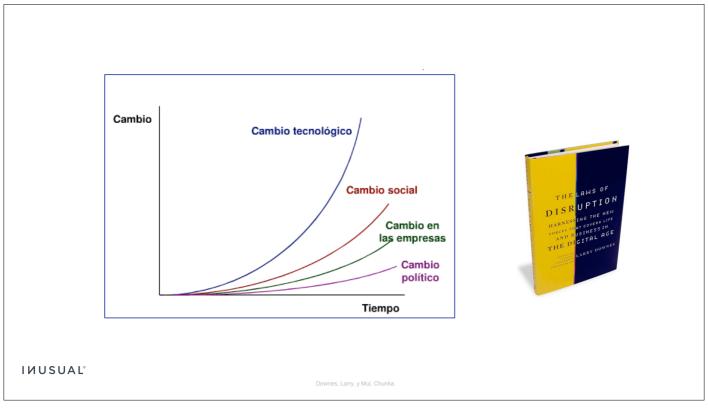

THE ENEMIES OF ADAPTABILITY WHAT ARE THE BARRIERS THAT PREVENT OUR ORGANISATIONS FROM BEING MORE ADAPTABLE?

That is the question we posed to contributors during the early stages of the hackathon. In just under two weeks, our hackathon community developed a list of over 120 enemies of adaptability—barriers that prevent our organisations from being as adaptable as they could be. As we read through these 120 enemies of adaptability, we saw 12 core themes emerge. These are perhaps the most critical barriers that impede organisations from adapting to the changing world around them.

MÉTRICAS DE INNOVACIÓN POR ÁMBITOS

LIDERAZGO

- Porcentaje de innovaciones que provienen de recursos externos, crowdsourcing e innovación abierta.
- Porcentaje de inversión en innovaciones disruptivas vs evolutivas.
- Porcentaje de tiempo dedicado por parte del liderazgo de cara al futuro vs operaciones diarias.

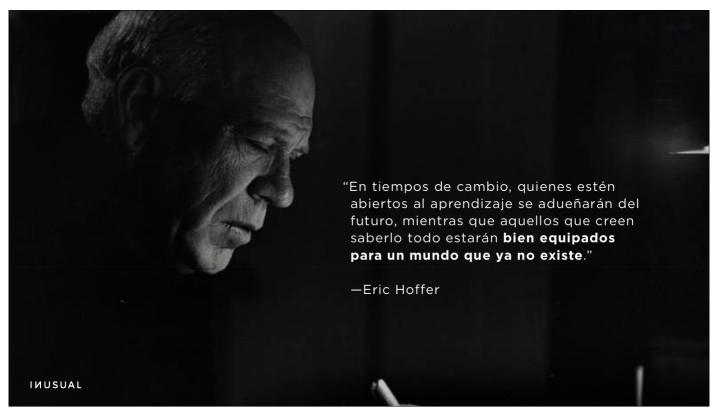

EMPLEADOS

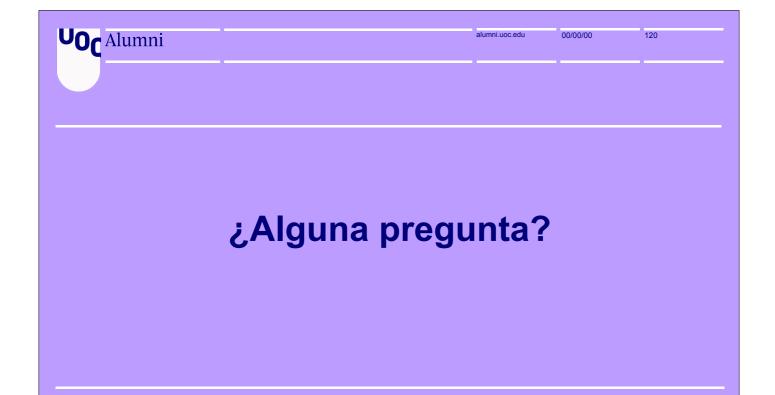

- Número de patentes que provienen de ideas de los propios empleados.
- Número de ideas que se han implementado a partir de propuestas de los empleados.
- Número de ideas que han participado en algún tipo de premio de innovación.
- Porcentaje de empleados entrenados en el proceso de innovación.

CLIENTES

- Porcentaje de innovaciones que provienen de clientes, por medio de la innovación abierta.
- Número de productos o servicios que provienen de haber escuchado al cliente en las redes sociales.
- Número de clientes que participan en algún tipo de propuesta de innovación que les hemos hecho nosotros.
